* Using the automated Z-Wave devices e.g. Remote Programmable Thermostat **saves** the average home about \$13 per month off utility bills. Businesses can be much higher. We estimate an additional savings of about \$12 per month when using a case of GE CFL's provided by us when you select the Energy Management plan. Source EnergyStar.gov

* Monthly monitoring may be eligible for additional savings.

* Monthly monitoring costs will vary depending on the services selected by the user, discounts offered from insurance companies and automation devices used. E-mail us for a list of insurance companies that offer discounts up to 20% off annual premiums when your property is protected with a Cellular monitored system. (**No** Phone Line or Cable required)

* Interactive services like texting and home automation add to monthly monitoring cost.

* Additional Z-wave devices e.g. Thermostat, Light Switches, Door & Window Sensors, Door lock/unlock device and Ultra High Resolution Cameras available. Ask about discount packages.

Don't be confused by the term "**Wireless**"

Wireless does **not** mean you have a *Cellular* system it more likely means you have sensors that transmit a wireless signal to the Control Panel. If your Control Panel connects to a phone line or cable you have an outdated system vulnerable to being disarmed by simply cutting the phone line outside the building or disabled when the line is damaged miles away by a storm or accident. [See disclaimer.](#)

The Cellular module (Control Panel) like any cell phone has a required onetime \$99 activation cost to register users with Police, Fire and Medical responders. Receive a mail-in rebate for the full amount from BuyLocalByCity.com after installation with a certificate provided by our preferred partners or show your membership card if applicable when ordering a system.
