Maps Not to Scale

GRAEAGLE... the unmistakable town, known for its little red buildings...

SHOP the charming and inviting little red buildings that today house specialty shops, services, restaurants & galleries. Graeagle began as a mill town, known as Davies Mill. The mill and the little red buildings were moved via train from Sardine Valley in 1916 to the present locations. In 1920, the California Fruit Exchange bought the town and mill to manufacture fruit boxes. Then in 1958, the town was bought by the West family who currently maintain it today.

PLAY Graeagle is a Sierra gateway to unlimited recreational opportunities. Enjoy clean air amidst the numerous lakes, streams & hiking trails located throughout the nearby Lakes Basin Recreation Area and Plumas-Eureka State Park. Or enjoy the Mill Pond located in town or grab your clubs and head for the many quality golf courses located within short distances.

DINE Enjoy fabulous dining in a variety of restaurants & cafes before or after a day's activities. From internet cafes & lattes, to burgers, pizza, steak, seafood and more, Graeagle offers the best in fine & casual dining.

STAY at one of our great RV parks, resorts and lodges. Deluxe suites to rustic cabins and so much in between, Graeagle is an altogether different vacation experience! Enjoy Graeagle, Blairsden, Clio, Johnsville, Plumas Pines, Whitehawk and the Lakes Basin Recreation Area.
