

This CHAMBER proudly features...

DISPLAYED RIGHT TECHNOLOGY[©]

We are working hard to be sure your community can compete online. This Chamber has set up **Displayed Right Technology[©]** services - designed to help our members optimize their businesses for today's demanding web presence.

WE MAKE IT EASY

SO YOU CAN CONCENTRATE ON
WHAT'S IMPORTANT...

Bringing traffic to your business!

Building Ad Networks for our Members.

Most people visit the Chamber of Commerce because they are interested in finding reliable information on the community and organizations that reside within that community. Because the **Chambers are a trusted source**, they typically rank high on search engine results... 1st, 2nd, 3rd, 4th position is fairly common.

When people reach our site from various search engines, the **Displayed Right© system** provides a local search and other unique tools to help them **find exactly what they are looking for from OUR community.**

Being correctly set up will increase prospects for members and also help them improve their own current results on the Internet.

WE ARE HERE for YOU!

Displaying Members Properly Online

By looking through the Displayed Right website - **DisplayedRight.Com**, you can see that a lot of thought and development have gone into this program. We want to be sure that it works for our members... even our members who prefer to **“say NO to logins”** and computers. We believe that it's critical each member is setup properly in the system so that we can promote your community effectively, online and through mobile devices.
