Program Summary:

All over the country you will see thousands of attempts to help grow local commerce, but the vast majority fail. Why is this? It is because 90% of business owners simply do not have the time to contribute information to the community systems. Also the organizations who consider doing the work for their members find out quickly that the cost of assembling and processing the data was simply too expensive. In understanding this market extensively through our sister company, Tiodew, we made a decision to re-invent how a buy local program was structured and automated. Today, there is an affordable solution that is critical to any economic development program or plan for promoting member businesses.

- We Provide the Program Automation
- We Provide the Chamber Assistant
- We Gather Information/Interview Businesses
- We Create a Unique Storyboard Presentation
- We Do the Data Entry for the Business
- We Deliver Outstanding Support and Results

First, we want to assure you that this program offers an optional upgrade and is NOT a replacement for your existing or future membership plans. This program is simply an option to upgrade any traditional membership plan to premium.

This system works alongside all membership management systems.

If you do elect to add this program to your Chamber of Commerce, and 20% of your members are ultimately at the Premium Membership Level, we offer to provide your Chamber a complete membership management system at NO COST from Chamber Nation.

Your Members Will Love Their Chamber Assistant!

When you join the Chamber of Commerce as a premium member we give you more time to focus on the big picture by taking care of the little details that will help you gain new prospects.

As a member you will be assigned your own Chamber Assistant ("CA") — a smart, highly trained US-based point person who works remotely as your right hand and left brain for your local online presence. You delegate a display task and your CA is on it.

ANTI-SPAM POLICY

Policy

Company has a no tolerance spam policy. Company's customer support actively monitors large import lists and emails going to a large number of contacts. Any customer found to be using Company for spam will be immediately cut-off from use of the product. If you know of or suspect any violators, please notify us immediately at support@chambernation.com. Members are not granted access to send broadcast emails out using this system so this policy applies to users with ADMIN LEVEL security only.

Every email contains a mandatory unsubscribe function.

What is Spam?

Spam is unsolicited email also known as UCE (Unsolicited Commercial Email). By sending email to only to those who have requested to receive it, you are following accepted permission-based email guidelines.

What constitutes a Preexisting business relationship?

The recipient of your email has become a member, made a purchase, requested information, subscribed to an event, responded to a questionnaire or a survey, or had offline contact with you.

What constitutes consent?

The recipient of your email has been clearly and fully notified of the collection and use of his email address and has consented prior to such collection and use. This is often called informed consent.

Isn't there a law against sending Spam?

The federal anti-spam law went into effect on January 1st, 2004 and preempts all state laws. While this new law will not stop spam, it does make most spam illegal and ultimately less attractive to spammers. The law is specific about requirements to send commercial email and empowers the federal government to enforce the law. The penalties can include a fine and/or imprisonment for up to 5 years.

How Company protects you from sending spam

Company is a permission-based membership automation company with email-broadcasting tool that follows the strictest permission-based philosophies:

Communication - Your organization clearly shows membership opportunities and registration page may state why you are collecting the member's email address, how you plan to use their address, and that you are following the embedded privacy policy. Additionally, by accepting our online services agreement you have agreed to use only permission-based lists (members) and never to sell or rent your lists.

Unsubscribe - Every email generated from Company contains an unsubscribe link which allows your members to opt-out of future emails and automatically updates your contact lists to avoid the chance of sending unwanted emails to visitors who have unsubscribed.

Identification - Your email header information is correct because it is pre-set for you by the Company. Your email's "From" address is verified and already accurately identifies your organization as the sender.

Contact Information - all of your emails are pre-filled with your organization's contact email information.

How to protect yourself from Spam: Take the Spam Test

- Are you importing a purchased list of ANY kind?
- Are you sending to non-specific addresses such as: sales@test.com, business@test.com, webmaster@test.com, info@test.com, or other general addresses?
- Are you sending to distribution lists or mailing lists which send indirectly to a variety of email addresses?
- Are you mailing to anyone who has not explicitly agreed to join your membership mailing list?
- Does your email's subject line contain false or misleading information?
- Does your email fail to provide a working link to unsubscribe?
- Are you failing to process any unsubscribe requests that come to you via a "reply" to your email within 10 days or the request that did not use the provided unsubscribe link?

If you have answered YES to ANY of the above questions you will likely be labeled a SPAMMER. For more information visit
