Women Innovators - Carrers in Tech

College of Idaho - Caldwell
2112 Cleveland Blvd
Caldwell, ID 83605

07:00 AM - 02:00 PM MST

Looking for volunteers, panelists and wayfinders. There are plenty of opportunities to participate in a panel for all types of STEM careers.

We depend on YOU, real people with real careers in STEM, to teach the students about the amazing variety of STEM careers and what makes them exciting.

Thanks for your interest in being a general volunteer at this event! Please share this with your friends and colleagues in STEM careers that would be great role models to high school students.

Where: College of Idaho - Caldwell, ID - near Fillmore Street

Not the form you're looking for?

For information and registration questions about students, workshops, or TechZone, please contact the following people:

Student or Educator: Debbie Tuckness (debbie@women-innovators.org)

TechZone: Jennifer Lastra (jennifer@women-innovators.org)

**2nd International Conference on Stem Cells, Regenerative Medicine & Tissue Engineering
Paris, France**

Paris

Paris, ID 70123

09:30 AM - 06:30 PM MST

Rapaka Gayathri, +91 63002 91319

stemcell@pagesconferences.org

We are pleased to announce that the 2nd International Conference on Stem Cells, Regenerative Medicine & Tissue Engineering will be held on April 13-15, 2026 in Paris, France.

This would be one of the leading conferences in the fields of Stem Cells and Regenerative Medicine. The conference aims to gather scholars from all over the world to present the latest research outcomes and advances in relevant fields and provides an ideal environment for making new scientific collaborations.

The conference will be organized based on the theme of stem cell innovations in regenerative medications.

Join renowned leaders, researchers, and innovators to explore the latest advancements and future directions in stem cell science. This event brings together top experts, distinguished delegates, and passionate students for impactful discussions and invaluable networking opportunities. Be part of the conversations shaping the future of regenerative medicine.

We look forward to welcoming you to Paris for an unforgettable experience at the International Conference on Stem Cells, Regenerative Medicine & Tissue Engineering!

Sincerely,

R Gayathri | Conference Secretary

Message Multipliers: Leading with Influence in the Age of AI

Via Zoom

12:00 PM - 01:00 PM MST

The Idaho Technology Council's Spark Series is an educational initiative designed to strengthen Idaho's tech ecosystem through expert-led online sessions. Covering a wide range of topics—including cybersecurity, AI, biotech, investing in innovation, and securing business capital—this series provides valuable insights from industry leaders. Each session features engaging presentations in an open environment that fosters curiosity, collaboration, and practical learning. Whether you're a tech professional, entrepreneur, or investor, the Spark Series offers the knowledge and connections needed to navigate and grow within Idaho's evolving tech landscape.

In a world where everyone has access to the same tools, technology, and information, the leaders who stand out aren't just the smartest—they're the ones who can move people.

AI can support your work, but it won't lead your team, influence your board, or deliver your message in the moments that matter most.

Join us for Message Multipliers – Leading with Influence in the Age of AI, a powerful Spark Series session designed for executives, entrepreneurs, and high-performing leaders who want to elevate their communication and impact.

In this conversation, you'll learn how to:

Lead with influence before you say a single word

Read the room and adapt your message in real time

Deliver messages that drive action—in 5 minutes or 50

Featuring experienced leaders and communicators who have mastered influence across boardrooms, stages, and high-stakes conversations, this session will equip you with practical strategies to communicate with clarity, confidence, and purpose.

Because every time you speak, influence is either earned—or left behind.

Treasure Valley Women in Tech Spring 2026 Networking Event
Ruch Engineering Building at Boise State
1375 W University Dr
Boise, ID 83706

06:30 PM - 08:00 PM MST

On Tuesday, April 21, Treasure Valley Women in Tech will host our spring networking event. We look forward to hosting students, early-in-career women, and seasoned professionals for dynamic, small group breakout discussions on everything from AI transformation, leadership, early-in-career challenge.

Join Treasure Valley Women in Tech for our spring networking event! This is an excellent opportunity to connect with talented women from a wide range of tech roles and industries, including local students and professionals from global companies like Microsoft, Amazon, HP, Micron, Intuit, and thriving, local tech-focused startups.

The main programming of the evening will be small group, break out discussions based on topical interests such as: leadership in this rapidly changing technology environment, AI and innovation, early-in-career challenges, navigating career transitions, and more.

We are actively looking for women willing to be discussion leaders for the evening and help facilitate a breakout group conversation. Each group will be provided 3-4 customized discussion prompts to help guide the discussions. Please reach out to us at info@tvwomenintech.org if you are interested and able to lead a breakout group discussion.

AI-Focused Technology Trends with Member Southfork Technology

Alturas HQ

250 E Eagles Gate Dr

Eagle, ID 83616

05:00 PM - 07:00 PM MST

The Idaho Technology Council is hosting an upcoming event with Member Southfork Technology Advisors focused on the practical side of AI - highlighting what's actually being used inside businesses today.

The discussion will cover where teams are seeing real impact, what's proving valuable, and what may be overhyped. Attendees will also hear perspectives from organizations actively building and working in this space.

The event will include a short panel, open discussion, and time to connect with fellow members.

*Hosted at the Alturas Office Space located at 250 E Eagles Gate Dr, Eagle, ID 83616.
Agenda*

- 1. Welcome & Opening Remarks
Introduction by Shane (Southfork overview)*
- 2. Panel Discussion
AI trends, real-world applications, and industry insights*
- 3. Audience Q&A
Interactive discussion with panelists*
- 4. Networking & Close
Continued conversations and relationship building*

Idaho Tech Ambassador Meeting

12:00 PM - 12:45 PM MST

Amanda Bautista,

amanda.bautista@experis.com

Tech Ambassador Committee Meeting Invitation

Dear ITC Ambassadors,

Please join us for our upcoming ITC Ambassador Committee Meeting. This will be an important meeting where we will discuss key updates, committee expectations, and the future direction of the Ambassador Committee.

We will cover:

Creating new subcommittees

Expectations for the Ambassador Committee

Upcoming ITC events and ambassador involvement

Ideas to strengthen member engagement and connections

Your participation and input are important as we plan the next phase of this committee and its role in supporting Idaho's tech community.

Please make every effort to attend this meeting, your feedback and participation will be vital to shaping the direction of the Ambassador Committee,

From your Co-Chairs,

Amanda and Caleb

Idaho's Tech Connectors – Welcoming, Engaging, Leading

Join us for the next Tech Ambassador Committee Meeting—a dynamic gathering of members who are shaping the face of Idaho's tech ecosystem through hospitality, connection, and leadership.

This meeting is a great opportunity to:

Welcome new ambassadors

Collaborate on upcoming ITC events

Share insights and ideas for deeper member engagement

Strengthen your network with fellow tech leaders

Let's continue building a culture of connection in Idaho tech—together.

April 22, 2026

MTCHS Networking Coffee & Internship Fair

Meridian Technical Charter High School

3800 N Locust Grove

Meridian, ID 83646

08:00 AM - 11:00 AM MST

Duane Erickson, 2089947572

duane.erickson@mtchs.org

Join us for the MTCHS Networking Coffee and Internship Fair, where you can connect with graduating seniors, share industry insight, and engage with our juniors as they present their skills in a reverse internship fair. Your participation helps students build real-world communication and networking experience while giving you early exposure to emerging talent, with no hiring commitment required.

I-90 Aerospace+ Corridor Conference and Expo

Coeur d'Alene Resort

115 S 2nd St

Coeur d'Alene, ID 83814

08:00 AM - 05:00 PM PST

CDA EDC, (208) 667-4753

i90aerospacecorridor@cdaedc.org

The I-90 Aerospace+ Corridor Conference and Expo, taking place May 26-27, 2026 at the Coeur d'Alene Resort, is designed specifically for aerospace manufacturers seeking to expand their industry knowledge and build their business. Averaging 160 participating companies representing over 250 attendees and 49 exhibitors, this event provides participants the opportunity to learn about the latest industry trends, challenges, and forecasts while networking with peers, prospective customers, and vendors from the region's aerospace supply chain. The I-90 Aerospace+ Corridor has an extensive infrastructure built on its proximity to Puget Sound and Boeing's final assembly lines, with a proven history as a leader in providing production and services throughout the aircraft interiors and aero structures sectors, including finishing services such as coating, painting, plating and anodizing, as well as many MRO service providers. Conference attendees can also mix business with pleasure by golfing at the scenic Coeur d'Alene Resort Golf Course on May 28.

iTECH Summit Tech Powered. Community Led. Twin Falls
College of Southern Idaho
315 Falls Avenue
Twin Falls, ID 83303
08:30 AM - 04:00 PM MST

iTECH SAVE THE DATE

Twin Falls, Idaho

College of Southern Idaho

June 16, 17

This Summit isn't just another conference.

It's where Idaho's technology ecosystem comes together to build what's next. It's where INL researchers meet entrepreneurial founders, where Fortune 500 leaders connect with startup builders, and where community-driven innovation transforms from concept to commercial reality.

Because when Idaho's tech community collaborates across sectors, everyone wins. The research becomes more practical. The solutions scale faster. The innovations actually serve Idaho's needs. And the future becomes something we're all invested in building together.

Presented by the Idaho Technology Council

Building Idaho's technology capacity through collaboration, innovation, and community-driven growth.

WiTECH Summit 2026 Tech Powered. Women Led.

JUMP Boise

08:30 AM - 04:00 PM MST

WiTECH isn't just another conference. It's your strategic advantage. It's where you stop apologizing for taking up space and start commanding the room, where you transform from being the woman who "knows some tech stuff" to the leader who shapes entire industries.

Because when women lead in technology, everyone wins.

The products are more inclusive. The teams are more innovative. The solutions actually solve real problems.

And the future becomes something we're all excited to live in.

WiTECH Summit 2026 Agenda

Coming Soon!!

2026 Hall of Fame Gala and Idavation Awards, "Inspired Intelligence"

Boise Centre

850 W Front St

Boise, ID 83702

05:30 PM - 09:30 PM MST

*Join us as we honor the spirit of exploration, celebrate excellence in leadership and innovation,
and recognize the extraordinary impact of those charting tomorrow's course today.*

In a moment when technology is advancing faster than ever before, Inspired Intelligence celebrates the ideas, vision, and ingenuity that power meaningful innovation. This year's theme honors the leaders, builders, and trailblazers whose inspired thinking is shaping the next era of technology—where human creativity and intelligent systems converge to unlock new possibilities.

Across Idaho's growing innovation ecosystem, bold entrepreneurs, pioneering researchers, and visionary technologists are transforming inspiration into impact. From breakthrough discoveries and emerging startups to transformative applications of artificial intelligence and energy innovation, the future is being written by those who dare to imagine what's next.

On this night, we celebrate the minds behind the momentum—those whose inspired intelligence doesn't simply follow the future, but creates it.
