Spark Series: AI x Ethics: Designing with Intention

Via Zoom

12:00 PM - 01:00 PM MST

Join us for AI x Ethics: Designing with Intention, a thought-provoking Spark Series session designed for executives, technologists, policymakers, and leaders shaping how AI is built and deployed.

As artificial intelligence becomes more embedded in everyday business decisions, the question is no longer just what AI can do—but how it should be designed and used responsibly.

In this conversation, you'll learn how to:

*Build AI systems that are transparent, trustworthy, and aligned with human values
Identify and mitigate bias, risk, and unintended consequences
Balance innovation with accountability—without slowing progress*

The future of AI isn't just intelligent—it's intentional.

I-90 Aerospace+ Corridor Conference and Expo

Coeur d'Alene Resort

115 S 2nd St

Coeur d'Alene, ID 83814

08:00 AM - 05:00 PM PST

CDA EDC, (208) 667-4753

i90aerospacecorridor@cdaedc.org

The I-90 Aerospace+ Corridor Conference and Expo, taking place May 26-27, 2026 at the Coeur d'Alene Resort, is designed specifically for aerospace manufacturers seeking to expand their industry knowledge and build their business. Averaging 160 participating companies representing over 250 attendees and 49 exhibitors, this event provides participants the opportunity to learn about the latest industry trends, challenges, and forecasts while networking with peers, prospective customers, and vendors from the region's aerospace supply chain. The I-90 Aerospace+ Corridor has an extensive infrastructure built on its proximity to Puget Sound and Boeing's final assembly lines, with a proven history as a leader in providing production and services throughout the aircraft interiors and aero structures sectors, including finishing services such as coating, painting, plating and anodizing, as well as many MRO service providers. Conference attendees can also mix business with pleasure by golfing at the scenic Coeur d'Alene Resort Golf Course on May 28.

Your Marketing Stats Are Lying About ROI: Attribution By Identifying Customers

<https://attendee.gotowebinar.com/register/4177317807715105114?source=ITC>

10:00 AM - 11:00 AM MST

Nick Wynkoop, 2082600594

Nick@retlia.com

Let's be blunt: Your marketing measurement is wrong.

Not because your tools are bad...but because they don't know who your customer is.

When the same person shows up as:

an email subscriber

a paid search click

a retail buyer

an Amazon order

...you lose the ability to measure anything accurately.

This free webinar shows:

How attribution actually works in the real world

Why identity matters more than algorithms

How leading brands measure channels others can't

Solutions for mid-market retail / ecomm / wholesale brands without an enterprise budget

If you're making budget decisions off ROAS you're likely over-investing in the wrong channels.

Come learn how to get a system that gives you numbers you can trust for your growing mid-size retail, wholesale, and/or ecommerce brand!

USA Today Press Release, AP News

Speaker Info: Dean Wynkoop is the Technical Co-Founder of Retlia, coveted speaker worldwide on retail data, and former Director of Data Science at Cabela's, where he spent 25 years building advanced retail data warehousing, marketing attribution, and analytics systems. His work helped pioneer customer 360 analytics, cross-channel attribution, and large-scale retail reporting used across ecommerce, retail stores, and marketing operations.

Build, Break, Defend, Create, and Explore at Tech Quest Summer Camp

Published: April 22, 2026

College of Western Idaho (CWI) is giving middle and high school students the chance to explore technology this summer through Tech Quest Summer Camp, a hands-on experience designed to help students build, experiment, solve problems, and work directly with technology in a supportive environment that encourages creativity and teamwork.

Open to students in grades 6-12, the five-day camp is designed for all experience levels. Students do not need previous experience to participate. Instead, Tech Quest Summer Camp focuses on exploration and learning by doing, helping students discover new interests while gaining confidence with technology.

Throughout the week, students will take part in interactive activities connected to technology, engineering, cybersecurity, coding, and digital innovation. Participants also will learn more about CWI and the education and career pathways available in technology fields.

Activities include breaking out of a cyber escape room in partnership with Boise State University, testing their skills at the Lock Pick Cafe, building their first artificial intelligence model, coding games and apps, constructing a working network, and more. Each activity is designed to help students explore technology, build confidence, and discover new interests through hands-on learning.

Tech Quest Summer Camp

June 8 – 12

9 a.m. – 3 p.m.

Ada County Center Pintail Building (APIN)

Registration cost is \$200 and includes lunch and supplies. Scholarship opportunities are available.

Space is limited. Register today to reserve your spot and discover where technology can take you.

For more information about the camp or scholarships, contact Laura Hill at 208.562.2943 or laurahill1@cw.edu.

iTECH Summit Tech Powered. Community Led. Twin Falls
College of Southern Idaho
315 Falls Avenue
Twin Falls, ID 83303
08:30 AM - 04:00 PM MST

Idaho Technology Council Presents

iTECH Summit
Twin Falls

Tech Powered. Community Led.

? June 16–17, 2026

? College of Southern Idaho · Twin Falls, ID

The iTECH Summit Twin Falls brings together regional leaders, entrepreneurs, educators, and technologists for two days of forward-thinking conversation, hands-on learning, and community connection. This year's focus: how AI is transforming industries, workforces, and communities across Southern Idaho — and what it means for the Magic Valley.

Day 1 — June 16

VIP Fireside Chat & Leadership Reception

? Herrett Center · College of Southern Idaho

Reception

VIP Registration & Networking Reception

By invitation for regional executives, founders, and community leaders, sponsors, summit participants, and VIP All Access ticket attendees.

Fireside Chat

Building What's Next: A Founder's Journey Through Emerging Technology

A conversation exploring the entrepreneurial path behind Redox Bio Nutrients and how emerging technologies — including AI — have shaped leadership, growth, and innovation strategy.

DM

Darin Moon Founder, Redox Bio Nutrients

Executive Panel

AI Adoption for Leaders — Strategy, Risk & Opportunity

A candid executive-level discussion on how organizations are approaching AI adoption while balancing innovation, workforce readiness, governance, and trust. Topics include responsible implementation, change management, and practical AI applications across industries.

J

Moderator: Janeale Desert Creative Group

Networking

VIP Networking Reception

Relationship-building and networking for executives, speakers, sponsors, and community leaders.

Day 2 — June 17

iTECH Summit Main Event

? Fine Arts Bldg. Lower Theatre · College of Southern Idaho

Networking

Registration, Networking & Innovation Expo

Connect with exhibitors, sponsors, startups, and innovation partners while exploring emerging technologies and regional resources.

Keynote

The Tsunami of AI

A high-energy presentation on the accelerating impact of AI across industries, organizations, and communities — and how leaders can prepare for disruption and opportunity.

MM

Matthew Martinez-KlingerMelaleuca

Workforce Panel

Meet the Boss LIVE: The Future of Work

A workforce-focused leadership panel exploring how AI, technology, and evolving workforce expectations are reshaping industries and hiring — covering the skills employers value most, recruiting and retention, and leading through rapid change.

Pitch Competition

IDEA² Pitch Competition

Entrepreneurs, students, and innovators pitch business ideas and technology-enabled solutions to a live judging panel. Followed by a networking lunch with judges, entrepreneurs, and exhibitors.

Featured Speaker

Responsible Innovation: Navigating AI, Risk & Opportunity

A strategic conversation about responsible AI implementation, governance, intellectual property, and organizational risk management in an era of rapid technological change.

BF

Brad FrazerHawley Troxell

Panel

AI Readiness: From Awareness to Action

A practical panel helping organizations understand how to begin AI adoption and prepare teams, systems, and operations for the future — covering entry points, workforce upskilling, practical tools, and building confidence through experimentation.

BM

Moderator: Bryan MatsuokaSBDC

Panel

Built Here: Entrepreneurs Using AI to Scale Smarter

Regional entrepreneurs and business leaders share how they are using AI and emerging technology to improve operations, marketing, growth, and customer engagement — including real-world lessons learned and what it means to build in a regional community.

Panel

Connected Communities: Utilities, Broadband & Emerging Technology

A discussion on infrastructure, broadband expansion, utility modernization, and how communities are preparing for smart systems and emerging technologies — with a focus on digital access and responsible implementation in rural Idaho.

SC

Moderator: Steven Cook Trueleap

Closing Speaker

Building What's Next: Entrepreneurship, Reinvention & Community Leadership

A closing entrepreneurial story focused on innovation, reinvention, leadership, and investing back into the Magic Valley community.

MG

Mariann Griffith Former Owner, Homestyle Direct · Co-Owner, Turf Club

Awards

IDEA² Pitch Awards & Closing Remarks

Pitch competition winners announced along with sponsor recognition and closing reflections on innovation, collaboration, and community in the Magic Valley.

Presented by the Idaho Technology Council. The iTECH Summit is Idaho's regional technology event series — bringing innovation, leadership, and community together across the state. For sponsorship opportunities, speaker inquiries, or more information, visit idahotechcouncil.org.

Idaho Tech Ambassador Meeting

12:00 PM - 12:45 PM MST

Amanda Bautista,

amanda.bautista@experis.com

Tech Ambassador Committee Meeting Invitation

Idaho's Tech Connectors – Welcoming, Engaging, Leading

Join us for the next Tech Ambassador Committee Meeting—a dynamic gathering of members who are shaping the face of Idaho's tech ecosystem through hospitality, connection, and leadership.

This meeting is a great opportunity to:

Welcome new ambassadors

Collaborate on upcoming ITC events

Share insights and ideas for deeper member engagement

Strengthen your network with fellow tech leaders

Hosted by: Idaho Technology Council

Audience: ITC Members Only

Let's continue building a culture of connection in Idaho tech—together.

WiTECH Summit 2026 Tech Powered. Women Led.

JUMP Boise

08:30 AM - 04:00 PM MST

WiTECH isn't just another conference. It's your strategic advantage. It's where you stop apologizing for taking up space and start commanding the room, where you transform from being the woman who "knows some tech stuff" to the leader who shapes entire industries.

*Because when women lead in technology, everyone wins.
The products are more inclusive. The teams are more innovative. The solutions actually solve real problems.
And the future becomes something we're all excited to live in.*

WiTECH Summit 2026 Agenda

Coming Soon!!

2026 Hall of Fame Gala and Idavation Awards, "Inspired Intelligence"

Boise Centre

850 W Front St

Boise, ID 83702

05:30 PM - 09:30 PM MST

Join us as we honor the spirit of exploration, celebrate excellence in leadership and innovation, and recognize the extraordinary impact of those charting tomorrow's course today.

In a moment when technology is advancing faster than ever before, Inspired Intelligence celebrates the ideas, vision, and ingenuity that power meaningful innovation. This year's theme honors the leaders, builders, and trailblazers whose inspired thinking is shaping the next era of technology—where human creativity and intelligent systems converge to unlock new possibilities.

Across Idaho's growing innovation ecosystem, bold entrepreneurs, pioneering researchers, and visionary technologists are transforming inspiration into impact. From breakthrough discoveries and emerging startups to transformative applications of artificial intelligence and energy innovation, the future is being written by those who dare to imagine what's next.

On this night, we celebrate the minds behind the momentum—those whose inspired intelligence doesn't simply follow the future, but creates it.
